Nokia Siemens Networks press release dated January 5, 2011: Nokia Siemens Networks completes acquisition of IRIS Telecom

Press Release
Espoo, Finland — January 5, 2011

Nokia Siemens Networks completes acquisition of IRIS Telecom

The acquisition strengthens the company's implementation, network planning and optimization capabilities and business across Turkey, Eastern Europe and Central Asia

Nokia Siemens Networks today announced that it has completed the closing of the agreement to acquire all shares of IRIS Telecom. IRIS is a telecom and engineering services firm headquartered in Istanbul Turkey. The Share Purchase Agreement was signed on October 13, 2010 to combine IRIS Telecom's strong multi-vendor network planning and optimization (NPO) business with Nokia Siemens Networks' global capabilities, and create one of the region's leading telecom services players.

IRIS will continue to function as a separate legal entity with its head office in Istanbul, Turkey. Co-founder of IRIS, Mete Gokdemir continues in the role of CEO of the company. Johan Bruce, also a co-founder of IRIS, will assume a new role as Executive Director. Both will continue on the IRIS board as regular members.

IRIS was founded in 1999 with a target of providing high-quality network planning and optimization services to telecom operators and equipment vendors in Turkey, and the regions of Eastern Europe and Central Asia (EECA), and Middle East and Africa (MEA). It also delivers network deployment and network operation services.

Nokia Siemens Networks is a leading services provider to telecom operators and has strong network planning and optimization capabilities. It delivers over 900 planning and optimization projects per year, including 100 multi-vendor projects. The company has also provided 3G/HSPA optimization projects to over 90 customers.

About Nokia Siemens Networks

Nokia Siemens Networks is a leading global enabler of telecommunications services. With its focus on innovation and sustainability, the company provides a complete portfolio of mobile, fixed and converged network technology, as well as professional services including consultancy and systems integration, deployment, maintenance and managed services. It is one of the largest telecommunications hardware, software and professional services companies in the world. Operating in 150 countries, its headquarters are in Espoo, Finland. www.nokiasiemensnetworks.com
